

# UUA Community Development Match Program

## Application Form

In 2003 the UUA board of Trustees encouraged churches and districts to actively engage in Community Investing (CI), a core strategy of the socially responsible investing movement. In 2020 the board approved an increase of CI investing within the UUA Common Endowment Fund (UUCEF) from 1% to 5%. Thank you for helping us to meet this commitment by requesting a match of your community investment. Read these pages and submit this completed form to apply. The UUCEF will match a minimum investment of \$5,000 up to a maximum of \$10,000 of your total investment.

# UUA Community Development Match Program

## Match Program Eligibility

A UUA Congregation or District must invest a minimum of \$5,000 in any federally certified CDFI or member organization of the trade associations listed on page 2 of this form. The UUA will match that investment up to a maximum of \$10,000.

Note that churches and districts are encouraged to recommend other CIs outside of those found in the listed directories. These requests will be subject to the SRIC's due diligence process as outlined in the most recent CI policy and guidelines. See that policy for details on the UUCEF impact preferences. Submit those recommendations with a letter or email to Susan Helbert at [SHelbert@uua.org](mailto:SHelbert@uua.org).

## Community Investing Definition

**Community Investing (CI)** is financing that creates resources and opportunities for economically disadvantaged people and communities. CI supports development initiatives in low-income communities both in the United States and in developing countries. CI financing creates access to affordable financial services and financial education, loans for first-time homebuyers and affordable housing development, micro and small business development, community services, and venture capital financing.

**Community Investments** are offered by community investing institutions and include checking accounts, savings accounts, certificates of deposit, loan notes, equity investments in community development, and money-market funds.

**Community Investing Institutions** include community development banks, credit unions, loan funds (including microenterprise lenders), venture capital funds, and other institutions which offer investment products that support community development, e.g., the [Community Investment Note offered by Calvert Impact Capital](#).

## 5 Suggested Steps for UU Community Investing

1. Build a team of Community Investing (CI) advocates including social justice leaders, treasurer and finance / investment committee members.
2. Work together to learn about CI and develop your CI criteria, defining goals for social impact and standards for safety and risk.
3. Research options and decide on option that best meets defined criteria.
4. Work with your treasurer/finance office to execute the investment with the institution.
5. Submit match request OR email the UUA to recommend a direct investment.
